### ONE APPROACH, TWO DESTINATIONS

The °Fahrenheit 7 concept was born out of a friendship between the Vidoni and de Unger families. Two couples, with children in the same class room, shared a vision for a different kind of hospitality in the mountains. Their ambition: to give a new dynamism to ski hotels, combining cosy and lively spaces, but always focusing on the main reason to stay - to ski. The result: °F7 Val Thorens opened its doors in November 2016, and °F7 Courchevel in December 2017. Both hotels provide a relaxed 4\* atmosphere, Courchevel more homely, Val Thorens a touch more lively but both with a modern and comfortable feel with a vintage twist. The ski-in, ski-out location makes them ideal for both family holidays or holidays with friends.

### A BREATH-TAKING LOCATION

Boasting a spectacular Alpine location at 2,300m with magnificent views over the mountains, °F7 is right on the slopes allowing ski-in, ski-out access to Val Thorens' snow sure slopes. The main Peclet bubble and ski school meeting point are only a short ski away. °F7 is also only a short walk from the centre. The only difficulty will be to go out of its welcoming skiroom where you can enjoy a last coffee in the Ski Bar...!
